

Marine Shipyard Visiting By Zhiyou Marine

A professional marine and offshore equipment supplier Zhiyou Marine visited one of clients' shipyard on 13th Dec, 2017.

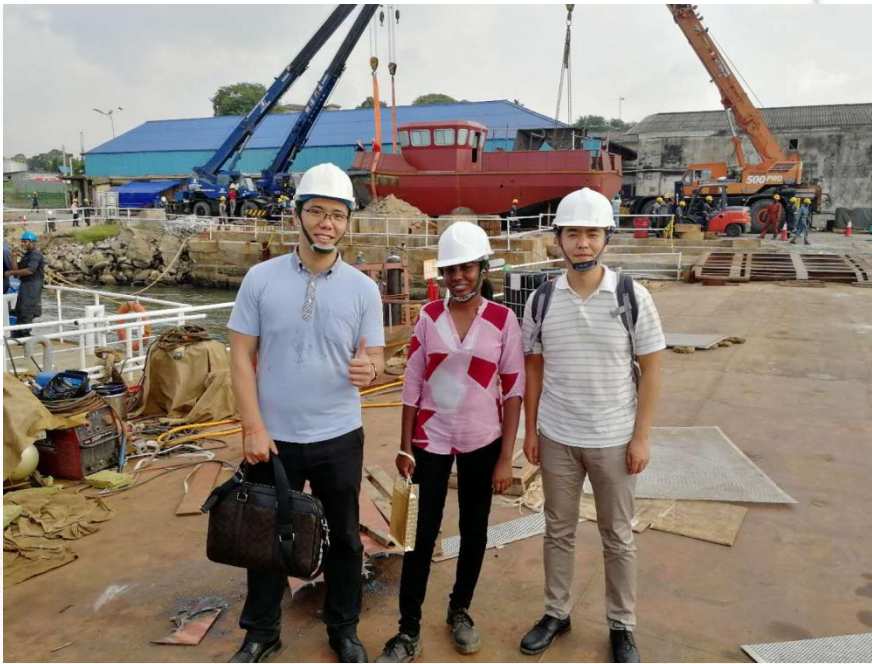

Discuss with shipyard engineers.

General manager of the shipyard welcomes our visitation and shows the development of the shipbuilding business in shipyard for us. "The quantity of new- built ships will further expand" He said and pointing his finger at the window, with some ships and a dry dock under construction.

Over the course of this year, Zhiyou Marine has provided many marine equipment. Such as [marine doors](#), [marine windows](#), [marine shaft](#) and [marine fire-fighting equipment](#) etc. Which had been purchased before and installed on the first launched tugboat in the shipyard. "I am so happy that the equipment have been worked well for the shipbuilding and played an important role in it ." Mr Eric Song said modestly - the sales & export manager of Zhiyou Marine.

Mr. Michael Huang, which is a very rich experience expert of Singapore general agent of Zhiyou Marine introduces marine engineering and shipbuilding projects in Southeast Asia to the shipyard engineers. The projects involved shipbuilding, marine steel structure products, self-elevating barge, jack-up platform etc.

Under the mechanical engineer of shipyard accompanied, we visited the under construction ships and dock.

[Zhiyou Marine](#) has a plenty of marine & offshore engineering solutions experience for many years and business around many countries. We pay attention to clients' demands and hope building a sustainable cooperation with them.
