

"A PIECE OF CAKE"

Non-standard Deck Scupper

By: Zhiyou Marine

About:

Products Name: Deck scupper.

Standard: Similar with CB/T 3885-2004, deck drain.

Material: Cast steel & stainless steel (SUS316).

Last month, before the Chinese 8 days vacation, we have received a email that a number of marine deck scuppers were demanded for a shipyard of Croatia. This batch of deck drains is much similar with standard CB/T 3885-2004, which was very well-known by us, Additionally, the structures was changed and some of accessories' material are unconventional. After a long two weeks, this batch of non-standard products had been done in workshop and ready to hand over.

Zhiyou Marine has doing marine and offshore jobs many years. And we has always working to bring a good selection and service for all customers or visitors who are welcomed to visit our new website:
